Special Agents Insurance Fund
FER 111.00

Dear Sir

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herowith (by Check - Money Order) the sum of \$10, payable to S.A.I.F., to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herowith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur.

It is noted that during the latter part of November and entire month of December, 1963, a substantial delinquency existed in the steno pool of the Milwaukee Office. The Bureau, of course, was kept advised of this situation in conformance with existing regulations. As a result expedite and deadline material properly flagged in the pool was handled first and routine matters in due course.

I agree with the decision of the ASAC in having SA MC CARRIER handle this matter since he was the agent most familiar with this case and, accordingly, was the logical person to conduct the necessary investigation and file review. In addition it was SA MC CARRIER's primary responsibility to insure that the deadline was met and that no undue delay occurred.

While SA MC CARRIER is responsible for the delay which occurred, the information available to the Milwaukee Office concerning this matter would not indicate that a substantive delinquency was caused as a result of his action. Accordingly, a form error has been scored against SA MC CARRIER and no further administrative action is being recommended.

2. ASAC J. Wallace LaPrade, GS-14 @ \$14,660, veteran, not on probation, first office as ASAC, at Milwaukee since 5/15/63. Mr. LaPrade makes an excellent personal appearance, displays a deep interest in his work and exhibits a businesslike manner. During inspection one substantive error was detected on his desk. (Copy of detailed substantive write-up attached.) Error involved ASAC's failure to properly evaluate an Extortion complaint and insure that appropriate investigation was conducted to resolve this violation. While no embarrassment to Bureau has resulted, the potential for same clearly existed and the interests of the Bureau were not properly safeguarded. This error points up the need for closer attention to supervisory responsibilities by ASAC LaPrade. Upon approval, attached letter of censure should be forwarded to him. SAC states ASAC LaPrade is SAC material and capable of serving as Seat of Government Inspector. Inspector feels that LaPrade should receive additional seasoning as an ASAC prior to being considered for further advancement. Letter to SAC will inform him of inspection results.

I want to thank you and ask you to convey my appreciation to Mr. LaPrade for a job well done.

Sincerely yours,

Mr. J. Wallace LaPrade Federal Bureau of Investigation Milwaukee, Wisconsin

Dear Mr. LaPrade:

I have received your suggestion that field offices be permitted to prepare and retain one copy of any communication for each location within the field office where it is needed. It is felt the procedure to which you have reference is already provided for in the Manual of Rules and Regulations and such copies may be made as long as the actual number is accounted for together with the final destruction of all the superfluous ones.

Your interest in submitting this idea to me is indeed appreciated.

Sincerely yours,

2 - SAC, Milwaukee

1 - Suggestion file

Your attention is called to the Manual of Rules and Regulations, Part II, Section 3D, 6c, page 11c and Part II, Section 4D, 4f, page

NOTE: Suggests that field office sending letters, airtels and other communications be permitted to prepare and retain one copy for each location within the field office where work is to be done.

NOTE CONTINUED

Training Division feels this matter is adequately covered in the Manual of Rules and Regulations (MRR) and no further action is necessary. Item cited by suggester in MRR, Part II, Section 4, page 30, item 3, provides: "...For sender. One. Show to whom copies are sent and the number at the lower left margin of page one..." The one copy cited refers to the number required since there must be a copy of each communication on file; however, this does not exclude other working copies, destruction of which is provided for in sections cited in note to SAC.

ASAC LaPrade was censured by letter dated 5/11/64 due to substantive errors detected in matters supervised by him during the inspections.

below average - reduction ordered. Operations of Chief Clerk's Office satisfactory. Stenographic and typist production above field average and retypes well below field average. Per diem costs below Bureau base. Total travel and communications costs above base - economy stressed. No substantive Erregularities detected in check of registers.

Personnel Matters - Very Good (Last Inspection - Very Good). Agent personnel adequate not excessive. Two clerical replacements to be made - then adequate. Available personnel passed examinations. No Agents overweight, on probation or unavailable. One Agent on limited duty - justified. Contributions to "The Investigator" average but of excellent quality. Recruited 4 Special Agents and 18 clerks this fiscal year. Latter above average, and SAC impressed with not allowing "letup." Morale appears very good.

Contacts - Very Good (Last Inspection - Very Good). 21 SAC contacts in diversified fields furnishing valuable assistance. SAC Baker (assigned 11/10/63) has under development 3 individuals who offer excellent potential to improve contact program further. SAC has not met 8 contacts and ASAC has not met 12. Instructed to do so in immediate future. Speech program effective although speeches declined by two in 1963 over 1962. 51 speeches given first 3 months of 1964 which indicates necessary attention being focused. Three television and 12 radio appearances by SAC since 1/1/64, and he has plans for expansion of these media. National Academy and Police Training Programs effective. Officials contacted spoke highly of Director, FBI and Milwaukee Office.

RECO	MMEN	DATE	ons:

1. SAC Richard J. Baker, GS-15 @ b6 b7C

2. ASAC J. Wallace LaPrade, GS-14 @ \$13,615, veteran, not on probation, first office as ASAC, at Milwaukee since 5/15/63. He makes a good impression, During inspection, 3 substantive errors were detected on his desk and as supervisor of these matters he is personally culpable for two of the errors. (Copies of detailed substantive

write-ups attached). These errors involved failure to acknowledge promptly a complaint received from another Government agency requesting Bureau investigation. There was a delay in over two months in acknowledging the letter. ASAC failed to institute the proper administrative devices to insure this matter was followed and promptly handled. The second matter involved the improper opening and maintaining of cases in a pending active status for several months in which there was no investigation to be conducted and numerous unnecessary communications were prepared. Above errors point up need for more experience and closer attention to supervisory responsibilities by ASAC LaPrade. He should be censured for his delinquencies and it is recommended attached letter be sent to ASAC LaPrade. Despite these supervisory delinquencies, it is believed ASAC LaPrade has the necessary qualifications and ability to continue as ASAC at Milwaukee. ASAC LaPrade has been recommended for a Quality Within-Grade raise for superior performance by SAC Baker; however, in view of above derelictions cited, it is recommended that the raise not be given.

3. Recommendations concerning other personnel handled separately.

DETAILS

PHYSICAL CONDITION AND MAINTENANCE VERY GOOD

Office conveniently located and although space is not contiguous it is well maintained. GSA has plans to take 500 feet of Bureau space for air-conditioning equipment for building, will give Bureau 1500 feet of other space adjacent to Chief Clerk's Office. This will allow reorganization of space along more efficient and utilitarian lines, will also make open-shelf filing feasible in Chief Clerk's Office to replace current file cabinets of various sizes which detract from appearance. SAC instructed to continue efforts to improve lighting in large Agents' room. Minor housekeeping delinquencies detected and corrected; necessary painting deferred until after reorganization of space. Space in Resident Agencies adequate, but furniture in some outdated. Replacement deferred until Headquarters City needs have been met. Autos in good condition; 27 of 38 automobiles inspected; 26 automobiles of total 38 are four years old or older. No delinquencies affecting safety detected. Repair costs per mile \$.014 and per automobile \$89 are slightly higher than field average of \$.018 and \$75. Operating costs \$.053 per mile below field average of \$.063. All Resident Agencies have commercial storage facilities for Bureau cars; storage in headquarters and Resident Agencies secure. Number of cars adequate but not excessive.

As of 3/31/64, case load was 1085 pending investigative matters (1011 active).

49 Special Agents, including SAC and ASAC, assigned. 41 active investigative matters delinquent for 4.1% (field average 5.0%). Inspector closed 35 cases. 3 substantive errors detected in 650 files reviewed for .51% (field average .34%). One involved improper opening and maintaining for prolonged period cases in which no investigation warranted, another was for failure to acknowledge receipt of complaint and delayed reporting while third involved improper supervision of case. Administrative action handled separately. Criminal Informant Program rated fair although Milwaukee has developed two very good top echelon informants in the Criminal Intelligence field. 7 Criminal Informants (CIs) and 10 Potential Criminal Informants (PCIs) deleted due to lack of productivity and failure to furnish quality-type information. Statistical accomplishments resulting from this program leave much to be desired and SAC instructed to improve. Weaknesses in Program pointed out by Inspector - SAC instructed to insure full Agent participation and to submit plans for revitalizing within 30 days.

Statistical accomplishments for first 10 months of current fiscal year, down in convictions (-10%) and autos recovered (-5%); up in fines, savings and recoveries (+284%), and fugitives apprehended (+11%). SAC instructed to concentrate on

Meno for Mr. Tolson Re: Inspection - Milwaukee Office

statistic-producing classifications where considerable decrease has occurred. 6 bank robberies (5 of which were solved), I burglary and 2 larcenies occurred since prior inspection. One other robbery which occurred prior to last inspection solved. One of two subjects identified in one of the 6 remaining unsolved cases. Instructions issued to afford vigorous and aggressive attention to these unsolved cases.

3 fugitive deadlines missed in 51 files reviewed or 5.88% (above field average of 4.40%). 5 applicant deadlines missed in 135 matters reviewed for 3.7% (below field average of 4.7%).

Milwaukee has made its deepest penetration of organized criminal activities by establishment of a highly confidential source and development of two top echelon informants. Another highly confidential source has been installed and operation anticipated at early date. Milwaukee has obtained two recent convictions under these statutes and has several other cases in which prosecutive potential is excellent.

No racial or Civil Rights problems in Milwaukee Division.

Communist Party of Wisconsin inactive for most part although a new CP club consisting of 5 members was organized in June, 1963. Two important double agents being operated by Milwaukee. Security Informant Program rated very good.

ADMINISTRATIVE OPERATIONS VERY GOOD

Milwaukee is two-dese office. Case supervision and administrative responsibilities equitably divided between SAC and ASAC. Time in office averaged 13. 3% for three months preceding inspection. No errors affecting fringe benefits detected in check of Daily Reports and Registers. Active case load per Agent as of 3/31/64, 20.6 (field average 23, 5). Due to fact 6 Agents assigned full time and 4 part time to Criminal Intelligence Program. Case closings per Agent 12. 2 (field average 12. 5). Errors of form 4. 61% (field average 4. 72%) - reduction ordered. Operations of Chief Clerk's Office satisfactory. The present physical setup of the Chief Clerk's Office will be materially improved when the planned reorganization of office space is accomplished. Misfiled index cards (0.24%) below average for offices of comparable size (0.32%). Stenographic production (4.4 pages per hour) above field-wide average (3.99 pages) and slightly above average for offices of comparable size (4.22 pages). Typist production is 4.67 pages per hour as compared with field-wide average of 3.56 or offices of comparable size of 3.72. Combined is 4.47 pages por hour. Retypes 0.004% for stenos and none for typists (combined 0.003%) as compared with fieldwide average of 1.65% and 2.24% respectively and with offices of comparable size 1.69% and 1.81%, respectively. Odd-hour shifts justified. For first nine months fiscal year 1964, per diem costs below Bureau base; total travel and total communications costs for same period slightly over base (5.9% and 5.5% respectively). Economy of operations stressed and SAC instructed to conduct survey of telephone costs with

Memo for Mr. Tolson Re: Inspection - Milwaukee Office

view of recommending installation of Wide Area Telephone Service (WATS).

PERSONNEL MATTERS..... VERY GOOD

All available personnel passed examinations. Total personnel 4/10/64, 78 (49 Agents and 29 clerical); clerk-Agent rato 59.18% (below field average 63%). Reassignment of Agent personnel Kenosha, Wisconsin, Resident Agency from Headquarters under consideration as criminal intelligence cases that territory being handled by Headquarters Agent. Present Agent staff adequate but not excessive. Currently have request for replacement of 2 clerks which would increase clerical staff to 31 or ratio of 63.26% (field average 63%). Considered adequate but not excessive. No Agents overweight, on probation or unavailable. One Agent on limited duty justified. New Agents being assigned matters with testifying potential. No Agents rated below "Very Good" on dictation ability. "On-the-spot" supervision by SAC or ASAC satisfactory. Submissions of items for "The Investigator" have been average for an office of this size. However, items were excellent in quality. During current fiscal year 4 Special Agent applicants have been recruited and 18 clerical applicants recruited for Seat of Government, which is above-average record. Recruiting program intensified, concentrated and broadened. Office commended by Director 4/16/64 for exceeding the clerical quota in the first quarter. Morale appears to be very good.

21 SAC contacts (21 last inspection) in diversified fields and furnishing valuable services. Although SAC Baker developed none of these, in his brief tenure he has 3 individuals under development who offer considerable promise. SAC has not met 8 and ASAC 12 of SAC contacts. Instructed to do so in immediate future. Speech program effective although slight decline noted in number of speeches (126) in 1963 compared to 1962 when 128 given. Through March, 1964, 51 speeches delivered. Since January 1, 1964, SAC has made 3 television appearances and 12 radio appearances, either live or taped. Fugitive publicity broadcast by 6 television and 5 radio stations. 64 National Academy Associates in 44 law enforcement agencies, geographic placement excellent, program well organized and relations excellent. Police Training Program effective, specialized schools being conducted, number of schools, personnel attending and departments participating increased in 1963 over prior year. Persons contacted during inspection highly complimentary of the Director, the FBI and the Milwaukee Office.

During inspection of Milwaukee Office. 1-29-65 to the Inspector noted that in the security informant cases b7D of payment letters had not been submitted two weeks prior to expiration date of payments as required by Section 107N of the Manual of Instructions. SAC Milwaukee was cautioned to make certain future letters were submitted on 'time. Rureau letter of 10-12-65 to Milwaukee Office pointed b7D out that had been discontinued and that in the case of a letter dated 8-30-65 had been submitted with effective date of payments 9-15-65. However, in the case of expiration date of payments 5-15-65, a letter dated 5-20-65 had been submitted and in the case of with expiration date of payments 8-30-65, a letter dated 9-1-65 had been submitted. SAC Milwaukee was requested to explain failure to submit the payment letters within the required time in the cases of particularly in view of the observations furnished by the Inspector, and to submit recommendation for administrative action, if warranted. SAC, Milwaukee, encloses explanations from SA to whom cases of are assigned, and explanation from ASAC J. Wallace LaPrade, on whose desk securityb7C informant cases are supervised. The SAC states SA been thoroughly admonished for his delay in this matter and informed that any future delays of this type will not be tolerated. He adds that a tickler is being set and the work of this Agent will be reviewed on a two-week basis with him to assure he is keeping current. He recommends that no further action be taken at this time. in his explanation states that the high cabe load carried by him, including such important matters as the development of sources of information concerning racial activities and the preparation and participation in riot control police schools, contributed substantially to the delays. He states that the press of other cases caused him to overlook the prompt submission of

ASAC LaPrade in his explanation points out that an administrative tickler on each informant who is paid is set up. This tickler comes up one month in advance of the effective date and the Agent to whom the case is assigned is notified at the time the

tickler comes up. He states that although SA has been be assigned a heavy case load, this is true of the Agents in the officb7c handling security-type work. He adds that during the pertinent period SA was busily engaged in handling racial matters and participating in riot control schools. He states SA has been admonished for the delay and clearly informed that regardless of the high volume of work, it is expected he will perform in such a fashion that the delays will be kept at a minimum. He adds that work will be followed more closely in the future. OBSERVATIONS:
While ASAC LaPrade mentions the administrative procedure he follows to be advised one month before the effective date of payments and of informing the Agent, he does not state that he followed the cases to make certain SA complied. Instead, he places the blame on the Agent. Since the Inspector by pointed out previous delays and cautioned that future letters should be submitted on time, ASAC LaPrade should be censured for having failed to avoid delays in the submission of the letters. Furthermore, should be censured for failing to submit the letters when due.

UNITED STATES GOVERNMENT

Memorandum

TO

SAC, Milwaukee (66-140)

DATE: October 14, 1965

FROM

ASAC J. Wallace LaPrade

SUBJECT:

INSPECTION, MILWAUKEE DIVISION 1-29-65 -- 2-12-65.

ReBulet 10-12-65.

An administrative tickler is maintained on all informants who are paid, which tickler comes up one month in advance of the effective date. The Agent to whom the case is assigned is notified at that time that the letter for continuing payments is due. This device is designed to afford the Agent appropriate time to get the necessary correspondence off to the Bureau two weeks prior to the expiration date, in accordance with requirements contained in Section 107, Manual of Instructions.

The two matters involved here are delays attributable to the same Agent. He has been assigned a heavy case load; however, this is true of all Agents in the Division handling similar type work. During the pertinent period, as indicated by SA in his memorandum, he was busily engaged in handling racial matters and participating in Riot Control schools.

It has been necessary to emphasize to SA that regardless of the high volume of work, it is expected that he will perform in such a fashion that delays will be kept at a minimum. He has been particularly admonished for his delay in submission of payment letters in these matters.

The work of this Agent will be followed more closely in the future.

CRIME AND DELINQUENCY IN AMERICA

America is being threatened by an atrocious crime problem which continues to increase. There are streets and parks of cities which are jungles of fear, and residents do not dare walk alone at night. Citizens of some communities ignore and refuse to render any assistance to victims of beatings, robbery and sex crimes. Civil disobedience, the acts of young hoodlums, probationary sentences and early release on parole are all factors which must be considered in this increase of crime.

In this land of the free, consisting of in excess of 190 million citizens, we strive for justice for all. The violators must receive just punishment if the innocent victims of crime are to enjoy any degree of justice, in our society.

More than 2,600,000 serious crimes were reported by police departments during 1964. This is a rise of 13% over 1963. Since 1958, crime has increased six times faster than our population growth. Nationally, there were 14 serious offenses per 1,000 inhabitants in 1964. This is an 11% rise in rate over 1963. Crimes in suburban areas have the sharpest trend, being up 17%.

ENCLOSURE

Many would like to believe this increase is not real, and such individuals have attempted to alter this picture by meaningless analysis and explanations. It would be wonderful to eliminate the problem in such a manner, but unfortunately this is not possible, and these figures are based on fact and facts which must be confronted with determination to find solutions, as opposed to fantasy.

To illustrate further, here is what happens in our beloved land as time ticks away: There are 5 serious crimes each minute; a murder, forcible rape or assault to kill every $2\frac{1}{2}$ minutes; a murder every hour; a forcible rape every 26 minutes; an aggravated assault every 3 minutes; a robbery every 5 minutes; a burglary every 28 seconds; a larceny every 45 seconds; an automobile stolen each minute. These crimes are occurring 24 hours a day -- even as you sleep.

This is what happens in a nation founded on religious convictions of the people, a nation which has progressed technologically, economically and in practically every other area, to heights which startle the imagination. Certainly the genius of such accomplishments properly employed can find a way to live with law and order prevailing.

Who are the people arrested for the serious offenses I have mentioned? Young people comprised 48% of all police arrests last year. Arrests for persons under 18 rose 15%, while adult arrests were up 9%. In suburban communities, more than half of the total arrests comprised young people, compared to 38% in the rural areas.

Nationally, males are arrested 8 times more often than females. The over-all arrest trend for females, however, shows a sharp rise of 20%.

The crime statistics cited are based on crimes occurring in 1964, and were supplied by police departments throughout the United States. Current figures just released for the first 9 months of 1965, show crime increased 5% during this period. Violent crimes this year were led by forcible rape, with a 6% increase; murder and robbery each up 5%, and aggravated assault 2%.

Many of our citizens have been captivated by the seditious slogan of "Civil Disobedience." Such acts cannot be accepted as normal behavior in our democratic society of free men. Every violator of every law can and usually does justify to himself his breaking of the law. If citizens are counseled and taught to disregard laws, we are surely inviting chaos.

Look at what is being taught by some! Recently, a college professor reportedly urged a group of students at the University of California to burn their draft cards, refuse to pay income taxes and, if necessary, go to jail for their actions. An interesting paradox, I submit, is that the freedom the draft-card-burning students are demanding exists only because loyal, selfless Americans died for such freedom.

that national leaders are doing the civil rights movement a great disservice by suggesting that citizens need only obey the laws with which they agree. He pointed out that such an attitude breeds disrespect for the law and even civil disorder and rioting. The citizen, he pointed out, has no latitude as to what laws he must obey, and if he feels a law is wrong or unjust, he has recourse to established constitutional procedures to have it changed through his legally elected representatives.

Individuals, leaders and anyone promoting or condoning acts of violating laws under the guise of freedom are furthering a society which seeks license -- not freedom.

The attitude young hoodlums are being encouraged to develop, which is "I can get away with anything -- I am a juvenile!" is obviously most dangerous and one with which our society must be concerned. A youth of lawlessness is hard put to develop into an adult who is law abiding.

The basic elements of right and wrong, as well as the discipline to obey and respect laws, are seldom acquired accidentally, but are more usually acquired by concerted effort on the part of parents and other adult leaders in a community. Juvenile acts overlooked and permitted to go unpunished result in contempt for an orderly society. Youthful criminal actions can be a deterrent in adult life to obtaining positions of responsibility and trust in both private industry and government. The non-disciplined individual who insists on doing just as he pleases, does so at the expense of those around him.

Think if you will, also, of how many criminals get out of prison and immediately launch into another spree of crime -- usually with succeeding crimes committed becoming more serious.

The FBI recently completed an examination of the records of nearly 93,000 criminals who were arrested in 1963 and 1964. This disclosed that 76% -- more than 3/4 -- had been arrested on at least one previous occasion. Over half had received lenient treatment, including parole, probation and suspended sentences at some point in their criminal careers -- and these criminals averaged more than three arrests after their first offense was committed.

Fortyone years ago, an experienced attorney and jurist in New York issued the strong warning, "It is not the criminals, actual or potential, that need a neurophatic hospital. It is the people who slobber over them in an effort to find excuses for their The demand of the hour in America, above all other countries, is for jurors with conscience, judges with courage and prisons which are neither country clubs nor health resorts."

The complacency of individual citizens and their insistence on not becoming involved presents a serious threat to law enforcement's efforts in coping with crime. There have been a number of instances highlighted in the news media where an individual was being attacked -some of whom were murdered -- and citizens, recognizing what was occurring, turned their backs to the helpless victims.

Numerous scientific developments have made possible great achievements in scientific crime detection, and have assisted greatly law enforcement. The fact, however, still remains that in our system of justice, the jury and judge weigh facts of individuals, and citizens in a free society must assume a responsible position in cooperating with law enforcement. The law enforcement officer cannot do his job effectively, except the citizenry cooperate.

Recently, the President signed the Law Enforcement Assistance Act, which is a bill designed to help strengthen the delicate machinery of justice in this country. The President has also appointed a special commission on law enforcement and the administration of justice to look into and seek answers for the problems of crime control.

6 -

I submit to you that the law-abiding citizens of our country deserve the protection necessary to assure they will not suffer at the hands of vicious violators.

It is understandable that law-abiding citizens should become alarmed over the crime conditions in our country, because whether they are a direct victim of a criminal act or not, they still suffer the consequences. We all pay the price of crime. Crime is estimated to have cost \$27 billion dollars last year. This is an amount approximating 1/4 of our national budget. It is \$143.00 per person per year, or \$574.00 per family, or \$429.00 for each taxpayer. The citizen who turns his back and tries to escape being involved, still is affected.

The president of a college in another state, and a personal acquaintance, in addressing the freshman class this fall pointed out to them that they were in college to develop capabilities to manage the country, and in the learning process, do not occupy positions of managers of affairs.

The college student can play a vital role in this nation's system of justice, law and order. To do this, he must be a law-abiding citizen at the college level. He should be concerned, become informed, and always remember that with freedom, there is responsibility.

ASAC LA PRADE dresses in a neat, conservative manner and makes a fine personal appearance. He converses well, is poised and exhibits a straightforward and sincere personality. In handling his duties as ASAC, he has approached matters maturely, logically and has shown a particularly competent manner in the handling of personnel and related situations:. He has frequently been in charge of the office in my absence, has accepted the additional responsibilities easily and has exhibited no hesitancy to take appropriate action where Mr. LA PRADE is an experienced public speaker and has received numerous favorable comments concerning his representation of the Bureau. Since the last inspection he was censured 2/26/65 as a result of a substantive write-up submitted at the time of the last inspection. By letter dated 11/2/65 he was censured for failure to properly discharge supervisory responsibilities concerning administrative handling of certain security informant cases. By letter dated 3/18/66 Mr. LA PRADE was commended by the Director for exemplary supervision of a difficult confidential operation in the security field. The Director on 9/2/65 acknowledged a letter from a chief of police in Wisconsin commending the efforts of Mr. LA PRADE and other agents which greatly assisted the local agency in retrieving unharmed a young boy who had been abducted. Mr. LA PRADE is completely available for any special or general assignment in the Bureau, is very interested in administrative advancement and is certainly SAC material. Based on my observations of his performance and capabilities, I have no hesitation in recommending him for further administrative advancement in the Bureau. I feel he is well qualified at the present time to effectively function as a Seat of Government inspector.

MEMORANDUM FOR MR. TOLSON

On July 8, 1966, I saw Assistant Special Agent in Charge J. Wallace LaPrade of the Milwaukee Field Division. Mr. LaPrade makes a good personal appearance.

I discussed with him the fact that he had five classifications of cases which were in excess of 7% delinquency, and this should be promptly corrected.

I also observed that in the month of May, 1966, the Agents in the Milwaukee Office had closed only 12.1 cases per Agent and I believed this was low, in fact, lower than the average of the service, and the Milwaukee Division should be closing between 13 and 14 cases per Agent.

I called his attention to the fact that for the first eleven months of the current fiscal year when compared with a similar period of the previous fiscal year, his office had dropped 6% in fines, savings, and recoveries, and this was a most unfortunate decline. I stated in the other three major items of statistics, the Milwaukee Office had only increased by a very small percentage over that of the first eleven months of the previous fiscal year and there must be greater effort made upon the part of the Agents to improve the accomplishments in view of the increases anticipated in our appropriation.

I commented favorably upon the fact that the Agents in the Milwaukee Office had in May spent 9.1% of their time in the office and I believed it should not go any higher.

I discussed with him generally the matter of informant coverage, stressing the importance of quality informants in all three areas of criminal, racial, and domestic intelligence informant coverage.

Memorandum for Mr. Tolson

I stated any rating less than Very Good I considered to be trending toward unsatisfactory, and I noted that the Milwaukee Office had been rated Good in Investigative Operations and Good in Administrative Operations due to various shortcomings and deficiencies in those two phases. I stated upon his return to Milwaukee, I wanted him to bring this to the attention of Special Agent in Charge Fields as there must be a marked improvement in the operations of the Milwaukee Office in order that all items not be less than Very Good.

I told Mr. LaPrade that I noted his office in May averaged two hours and fifty-one minutes overtime per day, which could not be avoided in view of the volume of work we have and the inadequate personnel which we have at the present time.

called Mr. LaPrade's attention to the case of Special Agent
who has been on limited duty since June 15, 1966, as a result of diabete
I stated I noted in some of the previous months when he was not on limited duty
he had failed to meet the average overtime of the office and since he has been on
limited duty he likewise has failed to meet the average overtime of the office.
I stated that I recognized that was now on sick leave and presently
hospitalized undergoing extensive tests. I stated I wanted to be thoroughly con-
siderate in this case, but that we could not carry a man indefinitely on limited
duty because of some physical disability and at the same time allow him to draw
fringe benefits when he was not performing the average overtime of the office.
I stated I believed that after returned and if, after three months,
he could not share equitably the overtime of the office, then he should be removed
from any work requiring overtime and his fringe benefits should be eliminated.

I observed that there were 14 robberies, 5 burglaries, and 16 larcenies pending unsolved in the Milwaukee Office under the Federal Bank Robbery Statute and this should be given immediate attention.

I commended Mr. LaPrade upon the fact that the Milwaukee Office had a good record in regard-to recruitment and I hoped that they would continue to maintain this record.

I stressed the imperative need of greater intensification on the investigation of racketeering and particularly the Cosa Nostra in his field division in view

July 22, 1966

Memorandum for Mr. Tolson

of the fact that Milwaukee, for all practical purposes, is a suburb of Chicago and, therefore, gets a large backwash of racketeering from the Chicago area.

I told him there was need for the Milwaukee Office to promptly accelerate their efforts to improve their. Top Echelon Criminal Informant coverage as at the present time they had only one such informant.

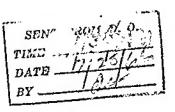

I told him I had noted the good work the Milwaukee Office had done in developing Interstate Transportation in Aid of Racketeering - Prostitution cases in Hurley, Wisconsin, and they should continue to give close attention to any violations of the Federal Statutes pertaining to racketeering in which we could proceed against the hoodlum element.

I stressed to Mr. LaPrade the imperative need for adequate coverage of the Communist Party in view of its intent to recruit young people in colleges and universities.

Very truly yours,

Mr. J. Wallace LaPrade Federal Bureau of Investigation Milwaukee, Wisconsin

Dear Mr. LaFrado:

During the course of the recent inspection of the Milwaukee Office you were found to have been derelick in the manner in which was supervised assess chitical.

Despite the high volume of work on your desz, you should have required earlier conclusion of the investigation of and prompt submission of a report. Furthermore, you should not have been influenced by the overzealousness of a first office Agent or the hasty authorization of fugitive process by a United States Attorney in a true name check-ways. An arrest of this Eureau subject by Eureau Agents without proper foundation could have caused considerable embarrasement to the Eureau.

You will be expected to handle your supervisory responsibilities in a more attentive manner in order to avoid such delinquencies and so that it will not be necessary to take further administrative action against you.

You should carefully review the letter to Special Agent in Charge Faul H. Fields, Jr., together with the work papers and administrative writeups left by the Inspector and promptly carry out the instructions contained therein.

Very truly yours,

2. J. Wallace LaPrade, ASAC since 5/15/63, GS-14 @\$15,696, veteran, not on probation, first office as ASAC. LaPrade makes excellent appearance, is businesslike, alert, to the point, readily accepts responsibility, appears interested, is ambitious. During inspection 2 substantive errors detected in matters on his desk (write-ups attached). 1 involved unreasonable delay in bringing to logical conclusion investigation of a security subject and delay in submitting a report. Despite high volume of work on ASAC desk, delay tolerated was unreasonable and excessive. Other case involved filing of fugitive process on true name check subject by a first office Agent on USA authority. Arrest of subject on non-existent violation could have caused embarrassment to Bureau and LaPrade, despite USA authorization and despite his own zeal for accomplishments, should have detected this potential and properly advised first office Agent against initiating

prosecutive action. Errors point out need for closer supervision by LaPrade; if approved, attached letter of censure should be sent. Letter to SAC will inform him of inspection results. SAC considers LaPrade SAC material; Inspector feels he would benefit from additional ASAC experience. Continue as ASAC.

JUSTIFICATION

The Bureau Applicant Program in the Milwaukee Office is supervised by Assistant Special Agent in Charge J. WALLACE LA PRADE. During the first 6 months of 1966 an all-out program was undertaken to insure that this office did its part and more in supplying the needs of the Bureau in regard to clerical applicants and special agent applicants as well. ASAC LA PRADE aggressively tackled this problem. He closely supervised the weekly assignments given resident agents to recruit applicants, meticulously checked to make certain that investigations were promptly and properly completed, and sent to the Bureau on time, and, in general, directly pushed the applicant program consistently and with a high degree of interest. efforts in this regard were highly productive despite the fact that this office lost 9 experienced agents by retirement or transfer at the beginning of 1966.

During the first 6 months of 1966 the following notable record was achieved: clerical applicants for Seat of Government favorably recommended and interviewed - January - 10; February - 24; March - 21; April - 18; May - 9, and June - 18, for a total of 100.

42 clerical appointments were received during the first 6 months of 1966, namely: January - 1; February - 5; March - 11; April - 1; May - 3, and June - 21. These do not include clerical appointees who changed their minds at the last minute or even after appointment.

The above clerical applicant appointments are considerably higher than the 26 appointed during the comparable 6 months in 1965. In addition, the 100 favorable recommendations was a considerable better record than that achieved in the comparable 6 months in 1965, when 101 were favorably recommended, inasmuch as 47 of the latter occurred in April, 1965, at which time 4 agents were working full time on the Clerical Applicant Program.

ASAC LA PRADE's aggressive and highly competent handling of the Applicant Program also resulted in an average of 1 agent appointed during each of the first 6 months in 1966. 2 applicants are under investigation at present, and 8 have been favorably recommended since January 1, 1966.

The exemplary performance of ASAC LA PRADE in this vital field which has resulted through his excellent supervision in attaining materially improved records in the clerical field was achieved at the same time he handled 1 of 2 desks which together carry a case load of over 1400 cases. His additional efforts and the ingenuity displayed in capitalizing to the fullest extent on every possible source for applicants allowed him to devote essential attention to other extremely vital office programs, such as statistical accomplishments in which the office was able to complete the fiscal year with plus in all categories, except convictions, which equalled the previous fiscal year.

The above performance of ASAC LA PRADE is considered to be exemplary and definitely far above average, considering the results obtained in supplying essential personnel for the Seat of Government, and it is felt these achievements, due primarily to his efforts, warrant recognition through an Incentive Award. The Director's commendatory letter dated March 31, 1966 to the Special Agent in Charge, Milwaukee, regarding the applicant program and the highly favorable comments made by the inspector during the March - April, 1966 inspection serve to underscore the superlative achievements which ASAC LA PRADE has made possible in the applicant field during the first 6 months of 1966. Accordingly, it is recommended that the unusual contributions of ASAC LA PRADE in this important aspect of office operations be recognized through the medium of an Incentive Award.

ADDENDUM OF ADMINISTRATIVE DIVISION TJF:1ks

SAC, Milwaukee has recommended ASAC J. Wallace LaPrade, Milwaukee Division for an incentive award for his aggressiveness and highly competent handling of the clerical applicant recruitment program in that division. According to SAC Milwaukee, LaPrade aggressively tackled the program and pushed consistently with a high degree of interest. The Milwaukee Division was operating on a double quota of two each month during the period February through June, 1966, for a combined total of 10. However, through the results of their intensified program a total of 33 clerks entered on duty at Seat of Government. These results were accomplished through LaPrade's excellent supervision and his performance during this sustained period of time was far aboveaverage. It is felt that ASAC LaPrade is deserving of an incentive award and, further, it is felt that a letter should be directed to SAC, Milwaukee commending him and, through him, personnel who contributed materially to the success of this most vital program.

ASAC LaPrade EOD 5/7/51; GS-14, \$16,675. Services have generally been satisfactory during the past 3 years and has been commended once and 3 times through SAC. Censured 4 times, the last 5/18/66 for derelictions detected during inspection in his supervision of an Interstate Transportation of Stolen Property case. Rated Excellent on 1966 annual performance report; is completely available; overtime satisfactory.

PERMANENT BRIEF OF HIS PERSONNEL FILE IS ATTACHED.

RECOMMENDATIONS:

1) That ASAC J. Wallace LaPrade be afforded an incentive award in the amount of \$150.00. (Amount in line with awards previously granted for similar performances.)

2) That general letter be directed to SAC, Milwaukee, commending him and, through him, others who participated in this Appropriate letters attached Many program.

ASS'T. SPECIAL AGENT IN CHARGE. (ASAC)

MILWAUKEE DIVISION

The purpose of this communication is to recommend reallocation of ASAC LA PRADE to GS-15.

Mr. LA PRADE entered on duty 5-7-51, and was assigned as ASAC in the Milwaukee Office on 5-15-63. He has developed into an effective and highly competent official in an office which provides varied investigative and administrative experience and challenges. He makes a fine personal appearance, meets the public and press in a professional manner, and supervises his desk efficiently and in a business-like fashion. He has earned the respect of his subordinates, handles personnel well, and coordinates his administrative efforts smoothly with the SAC. His administration of the office in the absence of the SAC has been efficient and effective. His work requires little direction or supervision. Mr. LA PRADE has exhibited unusual efforts, ingenuity and tenacity in closely following statistical accomplishment matters, resulting in a favorable statistical picture at present with excellent across-the-board potential for the fiscal year.

Mr. LA PRADE has done a particularly effective job in the Applicant recruiting field, making certain every possible source is explored, and insuring that reports are promptly submitted and that the Milwaukee office quota has been well surpassed, including three January, 1967, appointments pending at present. His exceptionally fine accomplishments in this area were recognized by an Incentive Award in July, 1966.

He is also an accomplished Bureau speaker, and has received numerous commendatory letters from appreciative groups. His handling of 32 speeches, including 9 radio programs, during 1966 materially assisted in this vital public relations program, which considerably surpassed the previous year.

An over-all evaluation of Mr. LA PRADE's administrative and investigative capability and performance places him in the upper levels of excellent. During the past year, he has been

individually commended by the Director twice, including an Incentive Award, shared in three commendations, and was censured once. He is strongly interested in administrative advancement, is completely available for same, and his health is apparently excellent. Mr. LA PRADE is 5 Ft. 10 3/4 In. in height with medium frame, and weighed 158 lbs., when weighed by SAC on 12-30-66, which is within desirable limits.

Based on foregoing considerations and evaluation of Mr. LA PRADE, and observation of him during the past year, SAC, Milwaukee, feels that his performance fully merits promotion at this time. Accordingly, it is recommended that Mr. LA PRADE be reallocated to Grade GS-15.

Honorable J. Edgar Hoover, Director Federal Bureau of Investigation 9th and Pennsylvania Avenue, N. W. Washington, D. C.

Dear Boss:

Inspector J. Wallace LaPrade, currently inspecting the ... Cincinnati Division, visited Publisher Robert H. Wolfe and me, today.

Although I am not accustomed to writing "fan" letters about inspectors it is a fact that I have seen many SACs, inspectors and Bureau officials, in their dealings with newspaper publishers and other prominent people.

Because of my affection for FBI, I felt a great pride swell up in me as I observed Inspector LaPrade meet and handle Bob Wolfe. I had not known LaPrade before but he is most impressive...poised. ... clear speaking...sensible. He makes an outstanding appearance and undoubtedly has extraordinary ability in public relations.

You undoubtedly know these things, but if he has not come to your attention, I wanted you to be assured he has unusual executive abilities.

Bob and I were honored by the inspector's visit.

Sincerely,

After completing several inspections successfully he was designated as an Inspector on 7/17/67. Mr. LaPrade is thorough and aggressive. During the Newark inspection his penetrative analysis of personnel files led to the identification of the author of an anonymous letter. During the recently completed Los Angeles inspection he made a very penetrative analysis of the Young kidnapping case and as a result was able to make a number of intelligent suggestions for additional investigation.

Mr. LaPrade makes an excellent personal appearance. He is above average in intelligence and his services as an Inspector have been very effective. He is entitled to the overall rating of Excellent.

INSPECTION - NEW YORK OFFICE 10/12/67 - 11/3/67

During the recently completed inspection of the New York Office several important streamlining procedures and savings were effected, particularly in connection with espionage and intelligence matters.

The phase of the inspection relating to Division 3 in the New York Office which handles espionage matters was under the supervision of Inspector J. Wallace LaPrade. A number of Permanent Aides assisted; however, contributions of SA Floyd M. Griffin and SA Fred J. Cassidy were particularly noteworthy. LaPrade, Griffin and Cassidy were responsible for nine suggestions to the Espionage Division in New York and they participated in one other for an estimated approximate annual savings to the Bureau of \$44, 131.01. The most significant suggestion was made by Griffin and related to the dissemination and channelization of technical surveillance information. Annual sayings effected by this change are estimated to be \$14,000 but more important benefits are increased dissemination of important information to Agents handling related cases and faster and more accurate presentation of the information to case Agents. Permanent Aide Cassidy collaborated with representatives of the Domestic Intelligence Division in surveys and evaluations which led to the deletion of form FD-210 previously used to report arrivals and departures of foreign nationals -- savings estimated at \$30, 131.01. LaPrade, Cassidy and Griffin were jointly involved in the eight other suggestions which will result in smoother administrative handling of leads, greater potential for development of informants, greater coverage of Soviet-bloc personnel on evenings and weekends and possible embarrassment of the Soviet colony in New York City.

Personnel in New York City handling espionage and intelligence matters commented to me that the recent inspection had been the most helpful of any within their recollection.

OESERVATIONS

The splendid inspection work of these Agents is worthy of recognition. The monetary savings alone are substantial but even more important is the increased effectiveness. Letters of commendation are being recommended to

He served as a Supervisor in the Domestic Intelligence. Training and Inspection, Inspection and Special Investigative Divisions prior to being assigned as ASAC in the Milwaukee Office, where he arrived on 5/15/63. He continued to serve as ASAC in Milwaukee until he returned to the Seat of Government to perform inspection duties, arriving 4/1/67. He received the designation of Inspector on 7/17/67. Inspector LaPrade performed in an aboveaverage fashion as ASAC in Milwaukee and has continued to perform in an excellent fashion as an Inspector. Since his latest reassignment to the Inspection Division, he has been commended on two occasions, the first of these was by letter 6/1/67 for his excellent participation in an investigation resulting in the identification of the writer of an anonymous letter. He was again commended by letter 11/21/67 for excellent inspection analysis resulting in material savings through streamlining procedures. He also received a cash award of \$150 by letter 12/20/67 in recognition of savings resulting from a suggestion. He has not been censured during this same period. He was rated Excellent in his latest annual performance rating of 3/31/67 with comments that he was fully competent to handle complicated investigative or administrative matters. Assistant Director Felt advised that Inspector LaPrade has been a most effective member of the Inspection Staff and has consistently performed in an above-average fashion. He was last seen by the Director on 4/5/67, and the Director commented he made a substantial personal appearance and seemed to be intensely interested in his new assignment (the performance of inspection duties). As of 1/31/68 the Salt Lake City Office had 908 investigative matters pending with 28 agents assigned.

RECOMMENDATION:

REC-132

That Inspector J. Wallace LaPrade be transferred from Inspection Division to serve as SAC in the Salt Lake City Office at no change in grade or

FELT PECTION MATTERS (PERSONNEL INTERVIEWS) PROPOSED STREAMLINING PROCEDURE #417-68 This is to recommend a more efficient and economical procedure of recording personnel interviews handled during inspections. A substantial savings can be realized with no loss in effectiveness. Grene MA BACKGROUND: Currently a considerable number of individuals are interviewed during the course of an inspection including Chief Clerk, Assistant Chief Clerk, Principal Stenographer, Assistant Principal Stenographer, Field Supervisors, Limited Duty Agents, Approved Bureau Speakers, Agents Unavailable, Personnel on Probation or under Suspension, Agents Undergoing First Inspection and others. Primary purpose of these interviews is to determine if such individuals are performing adequately. Presently SAC of office under inspection prepares an evaluative write-up on the employee and after interview an Inspector's addendum is added. These are filed in personnel files both in the field and at the Seat of Government. Seldom does the write-up require any action and consequently serves only to record a satisfactory finding. PROPOSED CHANGE: There could be prepared on each inspection one administrative 8 1967 memo randum listing all personnel interviewed and recorded thereon would bedata as to interviewer, date, and appropriate notation concerning satisfactory performance. The individual personnel write-up would be eliminated except in instances where specific action is to be recommended concerning an employee (recommendations for immediate advancement, for disciplinary action, for substantive errors, etc.). The administrative memorandum would become a permanent record in the Bureau inspection file covering each office and readily available for reference purposes. Re: Inspection Matters (Personnel Interviews)

Proposed Streamlining Procedure

personnel write-ups by office under inspection and eliminate considerable typing and filing both in field offices and the Seat of Government. For example, in recent inspection of the San Diego Office the new procedure would diminate 21 of 31 personnel write-ups which were prepared. Interviews of this type serve a very good purpose; however, except where seme action is recommended the current method of recording is not necessary.

It is difficult to calculate accurately savings to be effected by adopting the new procedure as number of interviews necessary in each office will vary. However, it is estimated complete handling of each personnel write-up involves approximately 2 hours total time including clerical, secretarial, SAC, Inspector and Bureau officials. Total cost with clerical time of 1:15 and Agent time of 45 minutes would approximate \$11.00 per write-up. At this rate savings of approximately \$231 would have been realized on San Diego inspection. Projecting this field-wide and using same percentage of personnel write-ups needed as in San Diego, a total yearly savings would approximate \$16,000.

RECOMMENDATION:

That current procedure of recording personnel interviews be revised and personnel write-ups utilized only when action concerning an employee is to be recommended. If approved, appropriate changes will be effected in inspection papers and inspection manual changes submitted.

W. M. FELT:wmj

The foregoing suggestion, which has been approved, was proposed by Inspector J. Wallace LaPrade. In view of the documented savings of some \$16,000 annually which will be achieved by this suggestion, it is recommended that favorable consideration be given to an award to Inspector LaPrade of an appropriate amount to be determined by the Administrative Division.

Administrative Division recommends incentive award of \$150 as consistent with past similar considerations.

Appropriate letter to Inspector J. Wallace LaPrade attached.

MEMORANDUM FOR MR. TOLSON

On February 21; 1258, I saw Inspector J. Wallace LaPrade, who was under orders of transfer to Salt Lake City as Special Agent in Charge. Mr. LaPrade makes a substantial personal appearance and seems to be interested in his new assignment, and I would rate him above average.

I discussed with Mr. LaPrade generally the operations of a field division, he already having served as Assistant Special Agent in Charge at Milwaukee.

I commented to him about the fact there were eight classifications of cases in excess of 7% delinquency and this should be promptly corrected.

I also called his attention to the fact that there had been a drop of 2% in convictions in the Salt Lake City Office for the first seven months of the current fiscal year when compared with a similar period of the previous fiscal year, and this was an unhealthy downward trend and should be promptly corrected.

I noted that the Agents in the Salt Lake City Office in January closed 16.5 cases per Agent, which I considered to be healthy.

I told Mr. LaPrade I noted the Agents spent 10.7% of their time in the office in January, which is excessive, and that the Security Agents spent 11.2% of their time in the office and the Resident Agents 14.1%, both-of-which are excessive.

I stressed the value of informant coverage in all fields of lour work, noting that the Salt Lake City Office has 40 criminal informants and 13 security informants, and the necessity for intensification of the development of top level informants.

that I did not want any unnecessary overtime and whatever overtime was performed must be equitably shared by all or fringe benefits should be rescinded in those cases wherein the Agents are not able to equitably share the overtime.

I noted that the Salt Lake City Office since July 1, 1967, had recruited 5 Special Agents and he should continue the intensification of the recruitment program.

I called Mr. LaPrade's attention to the fact that there were 14 bank robberies and 1 bank burglary pending unsolved in the Salt Lake City Office and this should be given prompt attention.

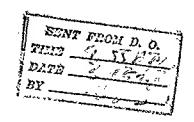

I commented upon the last inspection of the Salt Lake City Office in January, 1968, in which the office received two ratings of Fair, which were in Administrative Operations and Applicant Recruitment Matters. I told Mr. LaPrade he should make certain these matters are promptly corrected.

I discussed with him the activities of the Communist Party and the necessity of keeping on top of it.

I discussed with him the Criminal Intelligence Program and noted that while there was no evidence of the existence of organized criminal activity in the Salt Lake City Division, he should be particularly alert in regard to violations of the antigambling statutes and endeavor to develop some cases in that field.

SUBJECT:

LECTURES ON COMMUNISM AND EXTREMISM. UNIVERSITY OF UTAH, SALT LAKE CITY, TTAH, MAY 10, 1968

J. Wallace LaPrade, Special Agent in Charge of the Salt Lake City Office has informed me that Parry D.X Sorenson, Assistant to the President, University of Utah, Salt Lake City, has extended an invitation to me to address University of Utah students on the subject of communism and extremism on 5/10/68.

Sorenson, a former Special Agent, EOD 2/2/42, resigned 11/16/45, services satisfactory, is on the Special Correspondents' List.

There would be two lectures involved. One during the day with students in the Political Science Department and the other at night under the auspices of The Artists and Speakers Bureau of the University which would have an audience ranging from two to four thousand people. It is my feeling that these lectures would be a worthwhile presentation for a Bureau speaker and a fine opportunity to benefit the Bureau and project the Director's views on the dangers of communism and extremism before a significant group of young people.

I do not feel, however, that I should take the time from my responsibilities to handle these lectures. Since Mr. Sorenson is agreeable to a substitute if I am unavailable, I believe that SA Arbor W. Gray of the Domestic Intelligence Division, who is an experienced speaker on this subject, should be designated for these appearances.

RECOMMENDATION:

REC 9571-1-5657-90 That I be authorized to inform SAC LaPrade, Salt Lake City, that he may advise Mr. Sorenson that, while I am unable to accept this invitation, the Director has designated SA Gray, for captioned lecture appearances.

STANDARD FORM No. 176-T JANUARY 1968 (For use only until April 14, 1968) 176-101

INSTRUCTIONS TO EMPLOYING AGENCY

- 1. Who must file.—All employees not excluded by law or regulation from insurance coverage, including those who have previously waived coverage, are required to complete and file Standard Form 176-T. Employees who are in the service on February 14, 1968, as well as those who are appointed after that date but before April 14, 1968, must file the form.
- 2. Automatic cancellation of previously filed waivers.—All "Waivers of Life Insurance Coverage" (SF 53) on file are automatically canceled as of the first day of the first pay period beginning on or after February 14, 1968. Payroll offices are to begin regular insurance deductions on the automatic cancellation date for employees who do not file a new waiver, i.e., those who do not check box C of SF 176-T, on or before that date.
- 3. Employees failing to file.—If an employee does not return a completed SF 176-T, contact him and urge him to do so even if he does not want optional insurance (he will, of course, be automatically covered for regular insurance). If he still fails to file SF 176-T by April 14, 1968, or 31 days after appointment, whichever is later, file one for him as of that date: mark box B, and note in the space provided for his signature "employee contacted—failed to elect optional insurance." See note 2 below.
- Review of completed forms.—(a) Review both copies of the SF 176-T for legibility, completeness, and consistency. Reconcile with the employee any obvious major

discrepancy such as a mark in more than one box.

(b) If the employee marked box A or box C, make sure the Statistical Stub is complete. Then detach and mail stubs, in a bundle, weekly to:

Office of Federal Employees' Group Life Insurance (Statistical Study)

4 East 24th Street

New York, New York 10010

- (c) If the employee marked box B, detach and destroy the stub.
- 5. Date of receipt and effective date.—(a) Stamp date of receipt by employing office in the space provided for this purpose on both the Original and the Duplicate.
 - (b) The effective date is determined from the table below.
- 6. Disposition of forms.—(a) File the Original SF 176-T in the official personnel folder in all cases.
 - (b) Any necessary payroll change, with effective date, may be posted in the space reserved on the Duplicate for employing office.
 - (c) The Duplicate may be destroyed, if no payroll action is required, or after the requirements of the agency's payroll system have been met.
- Use of SF 176-T.—SF 176-T "Election, Declination, or Waiver of Life Insurance Coverage" should not be used after the initial filing period (after April 14, 1968). A revised edition will be available for use after that date.

	Elects optional (in addition to regular) (box A).	Coverage effective on date of receipt.	Deductions begin 1st day of 1st pay period beginning on or after date of receipt.
After February 14 but not later than April 14, 1968.	Declines optional (but not regular) (box B).	Declination effective on date of re- ceipt, but employee loses auto- matic optional protection on Feb- ruary 14, 1968.

	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay peri- od in which received.	Deductions stop last day of pay period in which received.

NOTES: 1. Because regular insurance coverage and deductions are automatic unless waived (by checking box C), A and B elections do not affect regular insurance effective dates.

2. An employee for whom the agency files SF 176-T because he failed to file is deemed to have declined optional, but not regular, insurance.

3. An employee with an uncanceled waiver (SF 53) on file cannot be insured any earlier than the first day he is in duty and pay status in a pay period beginning on or after February 14, 1968; filing of an SF 176-T before that date will not cancel an SF 53 any earlier. Deductions begin the day he becomes insured.

4. The effective date of regular (and optional) insurance coverage for an employee who has been on leave without pay for more than 1 year is the first day he is in pay and duty status. Deductions are effective the same day.

Dear Mr. LaPrade:

A thorough review has been made of the conduct of an investigation in the Extortion case involving The Agent to whom this case was assigned delayed excessively in interviewing the victim after receipt of the complaint. It was incumbent upon you to supervise the matter closely in order to prevent such delinquency, and you were remiss in failing to do so.

I will expect you to be carefully aftentive to umbered discharging your responsibilities in this regard in the future so there will be no necessity again for criticism of a similar nature.

Re: Injury sustained by at 3050 Bonnie Brae Avenue, Salt Lake City, Utah, May 16, 1969, attributable to negligence of landlord of said premises.	b6 b7С
In accordance with lease between County of Cache, State of Utah, known as landlord, and J. Wallace LaPrade and Elizabeth K. LaPrade of Salt Lake City, County of Salt Lake, State of Utah, tenant for premises commonly known as 3050 Bonnie Brae Avenue, in the City of Salt Lake, County of Salt Lake and State of Utah, it was clearly set forth and agreed the land- lord was responsible for certain maintenance of premises, namely exterior walls, interior walls, structural repair, interior decorating, exterior painting and yard surfacing.	b6 b7С
Victim suffered a broken bone, left foot, on May 16, 1969, at 3050 Bonnie Brae Avenue, which is above-described premises, and said injury was due to negligence of the landlord in not affording required repairs to garage door which fell on this child who is years of age and a minor.	b6 b7С
The landlord was made aware of the faulty spring mechanism	

The landlord was made aware of the faulty spring mechanism of the garage door, admitted repair was needed, stated it would be so repaired; however, the landlord never did in fact effect the required repairs. Failure to provide same constitutes negligence on the part of the landlord and the injuries sustained by the victim are thus the responsibility of the landlord. The landlord was on the premises at 3050 Bonnie Brae Avenue on May 17, 1969, at which time the injured victim was observed and the landlord was made aware of how the injury was sustained.

Expenses of medical attention, compensation for suffering, mental anguish and additional burden imposed on parents of victim which continues are to be borne by the landlord due to negligence.

The landlord will be apprised of claim to be submitted at such time as all bills have been tendered and medical assessment of future condition of victim received.

Respectfully submitted this 12th day of June, 1969.

PERSONAL ATTENTION

Mr. J. Wallace LaPrade Federal Eureau of Investigation St. Louis, Missouri

Dear Mr. LaPrade:

The results of the recent inspection of your office have been reviewed and I have approved the following ratings for the various operations: Administrative Operations - Fair; Physical Condition and Maintenance, Investigative Operations, Personnel Matters and Applicant Recruitment Matters - Very Good; Contacts - Excellent.

Your office space, including that in the Resident Agencies, was found to be neat and well maintained. Suggestions made for improved safety and security should be promptly implemented. I was pleased to learn that no safety defects were detected in your automobiles and that your automotive operating and repair costs are being held at acceptable levels. While there has been no increase in the number of automobile accidents since the last inspection, you should continue to remind your personnel that accidents can be prevented and they should drive defensively.

The racial situation in your territory has been relatively quiet, but the potential for violence is evident in the recent church confrontations, the rent strike in public housing, and in the large ghetto area in St. Louis. It is your responsibility to keep abreast of any developing racial situations in order to be cognizant in advance of significant occurrences. Promptly comply with Inspector's instructions concerning the need for additional quality informants as well as further geographical coverage in the ghetto.

Your record of statistical accomplishments for the recently concluded fiscal year and the first month of the current fiscal year is

most favorable. I expect you to vigorously follow the progress of each Agent to insure that this favorable record is maintained. Your overall solution rate of violations of the Bank Robbery Statutes is only slightly improved since the last inspection. You must follow closely the Inspector's instructions and specific suggestions to improve your solution rate in these highly important cases.

A 100

Your Criminal Intelligence and Interstate Gambling Activities
Programs were rated very good. Your Criminal Informant and Security
Informant Programs were also rated very good. Continue to stress
quality and productive accomplishments and immediately implement the
Inspector's instructions to obtain additional coverage on the New Left
including Students for a Democratic Society.

While missed applicant and fugitive deadlines in your office were below the field average, missed deadlines in civil rights matters were above and you must follow all deadline matters closely. I also expect closer attention to be afforded the submission of worth-while human interest items. The four substantive errors detected disclose a need for tighter supervision as do the adverse administrative trends pointed out to you by the Inspector. Immediate corrective action should be taken concerning the administrative handling of valuables in your office.

I was pleased to learn your Chief Clerk's Office was well organized and that both form errors and misfiled index cards were below the field average, but your immediate attention must be afforded to reducing backlogged pending and project work. The favorable production level of the stenographers and typists of your office should permit you to avoid stenographic delinquency.

I am pleased with the improvement in recruiting qualified Agent and clerical applicants. Only with your strong personal leadership and the cooperation of all personnel assigned to your office can you succeed in meeting all quotas to insure a steady flow of qualified clerical applicants.

Your speech, police training and National Academy programs were found to be effective. You and the Assistant Special Agent in Charge should take prompt action to meet those SAC contacts in your territory whom you have not yet had an opportunity to meet. I was pleased to learn that those individuals met by the Inspector speak highly of the FBI and the personnel of your office.

Mr. J. Wallace LaPrade

You and the Assistant Special Agent in Charge must carefully study the inspection findings left with you by the Inspector. Within thirty days of the receipt of this letter advise the Bureau of corrective action taken.

Sincerely yours,

John Edgar Hoover Director

 $\overline{5/20/69}$); Edward J. Krupinsky, ASAC since 1/24/66. Last inspection: 7/5 - 19/68. Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Office centrally located in modern, downtown Federal Bullding. Space, including that in Resi-

dent Agencies, functional, neat and well maintained; suggestions made for improved safety and security. 18 of 48 vehicles (2 trucks) inspected -- generally well maintained. Auto storage secure; fleet adequate. Auto operating and repair costs are below field averages. 5 auto accidents since last inspection (same as last inspection) -- no employees held responsible. Defensive driving stressed.

Investigative Operations - Very Good (Last Inspection - Very Good). Racial situation relatively quiet, but potential for violence evident in recent church confrontations, rent strike in public housing and large ghetto area (St. Louis 40% Negro). Militant black student groups, Nation of Islam, and 2 Klan-type groups within territory. Racial informants including those in ghetto improved (110 vs. 97); additional coverage required -instructions given with emphasis on quality and geographical coverage in ghetto.

Case load 6/30/69 - 2953 (2779 active); up about 7% from last inspection. Includes 431 active cases at records centers. Average case load and closings per Agent (excluding record check matters) consistently above field average. Delinquency equal to or below field 5 of past 9 months. Accomplishments for Fiscal Year (FY) 1969 and for first month FY 1970 up significantly in all categories. 4 substantive errors detected, slightly above field average (handled separately). 7 of 14 bank robberies (50%); 14 of 32 burglaries and larcenies, occurring since last inspection solved for overall solution rate of 46%, a slight improvement. 23 violations (16 burglary) remain unsolved. Memorandum to Mr. Tolson Re: Inspection - St. Louis Office

Informant Programs rated very good. Accomplishments and coverage improved -penetration of Communist Party excellent. Additional coverage needed on New Left
including Students for a Democratic Society -- instructions given. Missed applicant
and fugitive deadlines below field average; civil rights above. Office submitted no
human interest items in 1968 and none thus far in 1969 -- instructions given.

Administrative Operations - Fair (Last Inspection - Very Good). St. Louis 4-desk office -- justified. Work generally equitably distributed; minor realignment suggested by Inspector and SAC agreed. Chief Clerk's Office well organized but both pending and project work backlogged. Form errors and misfiled index cards below field averages. Errors in #3 registers and daily reports high -- fringe benefits not affected; instructed to reduce. Stenographic production slightly above and retyped pages equal to field averages. Minor stenographic delinquency cleared during inspection. Administrative trends detected and corrected included improper recording of dissemination of information; failure of Senior Resident Agent to initial daily reports; Baltimore Special Source requests not approved by SAC as required; and complaints and affidavits not all being reviewed by legal instructor. Valuables all accounted for but administrative handling weak -- firm corrective instructions given. Overtime essential, productive and equitably shared.

Personnel Matters - Very Good (Last Inspection - Very Good). Complement of 120 employees as of 8/1/69 (66 Agents and 54 clerks including 4 clerical vacancies to be filled). considered adequate and not excessive. SAC agrees. One Agent on probation -- productive and attitude excellent -- retention justified. No Agents on limited duty, unavailable or overweight. Morale appears high.

Applicant Recruitment Matters - Very Good (Last Inspection - Very Good). Since last inspection, St. Louis recruited 13 Agents (1 appointment outstanding) against overall quota of 10; met monthly quota 5 of 10 months involved. During same period, 49 clerks recruited (quota 46); met monthly quota 6 of 12 months involved. Significant improvement achieved over comparable period prior to last inspection, when 3 Agents and 24 clerks recruited. Specific instructions given to meet quotas and to emphasize steady flow of clerical applicants.

Contacts - Excellent. (Last Inspection - Excellent). Valuable and diverse services provided by 20 well-dispersed SAC contacts (18 last inspection). I developed by present SAC. Expanded public appearance program including utilization of radio and television media. Liaison, police training, and National Academy programs effective. Relations with press (except St. Louis Post-Dispatch), Federal and civic officials, including U. S. Attorney very cordial. All persons contacted spoke highly of Director, FBI and St. Louis personnel.

Dear Mr. LaPrade:

A review of Bureau records discloses a failure on your part to meet your assigned quota with respect to the Clerical Recruitment Program for Seat of Government during the combined period July, August, and September, 1969. You have been advised on several occasions of the critical need existing for qualified employees and it is evident, therefore, that you have failed to recognize the necessity of giving this program top priority.

Accordingly, I will expect you to take immediate steps to insure that sufficient personnel are assigned to recruiting activities and that you afford the program aggressive leadership so that there will be no basis to again criticize you for a similar deficiency. 67-

SUBJECT: J. WALLACE LA PRADE

SPECIAL AGENT IN CHARGE

ST. LOUIS OFFICE

This is to consider SAC LaPrade for promotion to Grade GS 16. By memorandum 12-30-69, it was recommended and approved that he be passed over for promotion at that time as his office had received a Fair rating in the last inspection due to adverse administrative trends in the Chief Clerk's Office and deficiencies on the part of a Senior Resident Agent. There had also been weaknesses in the applicant recruiting program.

The Fair rating mentioned above arose from an inspection which was conducted approximately 60 days after LaPrade had reported to the St. Louis Office and another inspection has just been completed wherein the office was rated Excellent on Personnel Matters and Contacts and Very Good on Physical Condition and Maintenance, Investigative Operations, Administrative Operations and Applicant Recruiting Matters. All deficiencies noted previously had been corrected. The statistical accomplishments for the St. Louis Office as of 2-28-70 showed an increase of 174% in fines, savings and recoveries, 27% in fugitives apprehended and 6% in automobiles recovered. There was a decrease of 3% in convictions.

LaPrade entered on duty 5-7-51 and is in Grade GS 15, \$23,749. He was designated SAC in Salt Lake City on 2-27-68 at a time when the current SAC was retiring as the result of an inspection wherein the office received three Unsatisfactory ratings. LaPrade did an excellent job in bringing that office to an above-average condition and was subsequently transferred to the St. Louis Office as SAC on 5-14-69. Since being designated an SAC, he has been censured twice, the last on 10-21-69 for failure to meet the combined quota of clerical applicants for the Seat of Government during the prior three months. As noted above, this situation has been corrected. On the other hand, he has been commended on two occasions and personnel of his office commended through him on ten occasions. The Director last saw him on 2-21-68 and stated he made a substantial personal appearance, seemed interested in

his new assignment (as SAC) and rated him above average. In the recently completed inspection the Inspector stated that LaPrade was an impressive, forceful administrator, qualified to continue as SAC. He was rated Excellent on his 1969 annual performance report and an Excellent rating is being proposed for him on his next annual rating due 3-31-70.

The St. Louis Office has 3390 investigative matters, 76 agents and 54 clerical employees assigned.

RECOMMENDATION:

That SAC J. Wallace LaPrade be promoted to Grade GS 16. This promotion will be effective 5-16-70 to fill vacancy created by the retirement of Legat Ferris, Mexico City.

PERSONAL ATTENTION

Mr. J. Wallace LaPrade Federal Eureau of Investigation St. Louis, Missouri

Dear Mr. LaPrade:

The results of the recent inspection of the St. Louis Office have been reviewed and the following ratings for your operations have been approved: Physical Condition and Maintenance and Contacts - Excellent; Investigative Operations, Administrative Operations, Personnel Matters, and Applicant Recruitment Matters - Very Good.

Your office space, including that in the Resident Agencies, was found to be excellently maintained and well organized. Follow closely with the General Eervices Administration concerning the acquisition of additional space to alleviate your present crowded condition.

Your automotive fleet is adequate and I was pleased to note your operating and repair costs of vehicles were below the Eureau averages. Stress safe and defensive driving with your personnel.

Although the racial situation within your territory has been relatively quiet, the continued attacks on police officers and school disorders could well be the forerunners of violent uprisings. You must promptly implement the Inspector's instructions to develop additional informant coverage in the Black Nationalist group and among the unaffiliated black extremists. Strive for coverage which will notify your office in advance of potentially explosive situations.

I was pleased to note the very favorable record of statistical accomplishments recorded by your office during Fiscal Year 1969. However, detracting from this performance is your present deficit of three percent in convictions for the purrent fiscal year.

Mr. J. Wallace LaPrade

Your solutions of bank robbery matters have declined. You must insure these matters are afforded continuous and vigorous attention. One of the most effective means to cope with bank burglars is to develop effective informants, and I insist such coverage be developed promptly. The twenty-five bank robbery violations, including seventeen burglaries, which remain unsolved point up the need for resourceful and imaginative investigative efforts.

Your Criminal Informant and Security Informant Programs were rated very good. Although you have excellent coverage of the Communist Party, there is a need to develop member informants among student activities in New Left groups.

Your Criminal Intelligence and Interstate Gambling Activities Programs were rated very good. Intensify your efforts to develop member informants in La Cosa Nostra. The increase in the number of top-echelon informants and targets is encouraging.

Your record of meeting deadlines is very creditable; however, the detection of four substantive errors highlights the need for tighter supervision and close adherence to rules and regulations. Likewise, the proper handling of evidence and confidential material should be stressed frequently to all personnel.

I was pleased to note that your Chief Clerk's Office is operating satisfactorily and has been able to reduce pending and project work. The favorable productivity of your stenographic personnel is gratifying.

There has been considerable improvement in your applicant recruiting activities in recent months. This must continue to receive your close and personal attention.

I am pleased to note that you are cognizant of the importance of good public relations and you have expanded your radio and television appearances. Your National Academy, police training and liaison programs were determined to be effective.

You and the Assistant Special Agent in Charge must carefully review the inspection findings and within thirty days of the receipt of this letter inform the Bureau of the corrective action taken.

Sincerely yours,

John Edgar Hoover Director

Investigative Operations - Very Good (Last Inspection - Very Good). Office instructed to obtain member informant coverage of Black Nationalists and increased coverage of unaffiliated black extremists.

Case load 2/28/70 - 3390 (3187 active, including 743 matters at National Personnel Records Center); represents 14.7% increase in active matters since last inspection. Case assignments per Agent (excluding record checks) above average of similar size offices and field; case closings per Agent above field average but below similar size offices -- improved turnover stressed. Delinquency above average and instructed to reduce. Accomplishments for Fiscal Year (FY) 1969 up in all four categories; for first 8 months of FY 1970, up in 3 but down 3% in convictions. Inspector issued instructions to concentrate on statistic-producing classifications so that last year's acomplishments will be exceeded. 4 substantive errors detected, slightly above field average (handled separately). 60% (3 of 5) of bank robberies and 25% (2 of 8) of burglaries (no larcenies) solved since last inspection for overall solution rate of 38.5% (5 of 13). informants and 15 targets last inspection). Criminal Informant Program rated very good. Security Informant Program rated very good; excellent informant coverage of Communist Party and splinter groups. No chapters of Students for a Democratic Society (SDS) organized on compuses this school year due to factionalism split; need for member coverage of known SDS members stressed by Inspector. Missed fugitive, applicant and civil rights deadlines below field average.

Administrative Operations - Very Good (Last Inspection - Fair). St. Louis is a 5-desk office -- justified. SAC instructed to follow closely heavy work load on Desk Number 3. Chief Clerk's Office operating satisfactorily; pending work above average, but considerably decreased since last inspection; project work below average. Stenographic productivity equals field average; retypes are slightly above average. Form errors and misfiled index cards below average. One administrative write-up involving improper handling of mail by Resident Agent (handled separately). Overtime necessary, productive and equitably shared.

Personnel Matters - Very Good (Last Inspection - Very Good). Complement 2/13/70 - 136 (77 Agents, 59 clerical). SAC and Inspector agree complement adequate but not excessive. One Agent on probation - retention justified. No Agents on limited duty, overweight or unavailable. Morale appears high.

Applicant Recruitment Matters - Very Good (Last Inspection - Very Good). Since last inspection St. Louis recruited 4 Agent applicants (quota was 6) and 37 clerical applicants (quota 28). Office censured 10/69 for failure to make quotas. Program improved appreciably as result of added emphasis and direction. Currently have 15 clerical appointments outstanding.

Contacts - Excellent (Last Inspection - Excellent). Valuable and diversified services furnished by 21 SAC contacts (20 last inspection). 3 developed by SAC LaPrade. Public appearance program improved with expanded use of radio and television media. Speech, liaison, National Academy and police training programs effective. Relations with Federal, civic and business leaders and officials including U.S. Attorney and press (except St. Louis Post-Dispatch) very favorable. Highest regard expressed for Director, FBI and St. Louis personnel.

RECOMMENDATIONS:

1. SAC J. Wallace LaPrade, GS-15 @ \$23,749, aged 43, veteran, not on probation, at St. Louis since 5/15/69, second office as SAC. Dear Senator McGovern:

I am writing in connection with your statements condemning FBI and the administration of Director Hoover. The information y is replete with errors.

As a Special Agent and an administrator involved daily with many difficult problems in the areas of crime and subversion it is quite apparent the results obtained are attributable to loyal, dedicated, hard work - on the part of 99.9% of the Special Agents and other personnel. This they do not only because they believe in the FBI but also because they believe completely in America.

A well disciplined, highly capable team of Special Agents is what Director Hoover's leadership provides. This type leadership gets results our nation can not do without. No agent condones a team mate who does not measure up in every way - too many innocent lives are involved. Discipline is not only appreciated but demanded by the hard worker determined to do the best possible job.

Please make no mistake, those who are doing what the profession rightfully demands are pleased to be a part of this difficult but rewarding career.

Contrary to the statement of degeneration, the results obtained are greater today than anytime during Director Hoover's tenure or the history of the FBI.

All Special Agents of the FBI with whom I have ever worked consistently treat all citizens fairly and in strict, disciplined compliance with the Constitution. The administration and training of FBI agents is directed to this end.

It should be pointed out there are numerous instances when Director Hoover has lessened penalities recommended by subordinates. He has a genuine compassion for personnel making honest mistakes and is understanding of human error.

I trust you will listen to the producers of results and not the failures.

Very truly yours.

SUBJECT: SAC J. WALLACE LA PRADE

:J. B. ADAMS—////

New York Office - Security Division

EOD 5-7-51; GS-16, \$30,005

PROMOTION

SAC LaPrade has completed over 90 days as SAC of the Security Division of the New York Office which is responsible for investigation of Racial Matters, CPUSA, New Left Extremists, Bombing Matters, New Left Organizations, as well as the MEDBURG, GARBURG, and WEATHFUG Matters. Assistant Director Malone has recommended SAC LaPrade for promotion to Grade GS-17 and has submitted a special performance rating in which he is described as having outstanding qualifications for administrative advancement and is rated highly in all aspects of his performance. He supervises 6500 cases, 249 agents, and 11 supervisors. He is also supervising the NEWKILL investigation.

SAC LaPrade entered on duty 5-7-51 and is in Grade GS-16, \$30,005, having been promoted to that grade 5-16-70. He has had well-rounded experience and prior to his present assignment served as SAC in the Salt Lake City and St. Louis Offices. On 2-16-71 the Director saw him and commented he made an excellent, mature, and substantial appearance, and the Director discussed with him the necessity for a firm but fair administration in connection with his new duties.

Since reporting to the New York Office 2-17-71 no administrative action has been taken against him and in connection with the New York inspection in 3/71, Mr. Felt stated SAC LaPrade was a hard-working, loyal administrator who had the respect of office personnel. He was most knowledgeable concerning his duties and responsibilities. The Office received overall ratings of very good in physical condition and maintenance, investigative operations, administrative operations, personnel matters, and applicant recruitment matters, and a rating of excellent in contacts. The Office, as of the end of 4/71, was up in all categories of statistical accomplishments, +35% in convictions; +96% in fines, ; savings, and recoveries; 46% in fugitives; and +24% in automobiles. The Domestic Intelligence Division has advised that SAC LaPrade is doing a fine job as SAC of the Security Division and knows of nothing which would preclude consideration of his promotion at this time.
